SUMMARY

I am a passionate MERN Stack Developer skilled in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. I have built real-world projects with a focus on responsive design, efficient APIs. I am actively seeking an internship or entry-level opportunity to apply and grow my skills.

PROJECTS

Chat-In : Real Time Chat Web (<https://chat-in-uanp.onrender.com>)

- A real-time MERN chat app with OTP login, JWT authentication, and Socket.IO messaging.
- Supports text, file & image sharing via Cloudinary, with edit, delete, and reply features.
- Built with React, Node, Express, MongoDB, Tailwind, and deployed on Render.

Git repository : <https://github.com/hardik-gojiya/chatapp-mern>

Writely – Blogging Platform

- A MERN-based blogging app with JWT authentication, rich editor, likes, comments, drafts, and user profiles.
- Supports tags, search/filter, save-for-later, and profile management with responsive UI.
- Built using React, Tailwind, Node.js, Express, MongoDB, JWT, bcrypt, and Nodemailer.

Git repository: <https://github.com/hardik-gojiya/blogging-platform>

INTERNSHIP & TRAINING

Web Developer Intern (Virtual) – Zidio Development

(May 2024 – July 2024 | 3 Months)

- Gained hands-on experience in MERN stack development with real-world project training.
- Built and optimized full-stack applications focusing on REST APIs, authentication, and responsive UIs.
